The Honorable _____

Office Address

United States House of Representative or United States Senate

Washington, DC 20004

Dear Representative or Senator _____:

As one of your constituents, I urge you to remember the issues facing our nation's law enforcement officers. When I decide on the candidates that I support, I place a lot of emphasis on those candidates that have a proven track record in supporting law enforcement officers.

In the future, please make the following issues facing our law enforcement officers a priority:

- Legislation and policy that promotes the **safety of our nation's officers** and their families.
- Legislation that **increases police funding for increased body armor and body cameras** for our nations law enforcement officers
- Legislation that is **tougher on criminals** in hopes to keep them off of our nations streets
- **Tougher penalties on attackers of uniformed officers** anywhere in the United States
- **Tougher penalties for repeat offenders** of violent crimes

Sincerely,

Your Name
